

Come to our tent during the Opuwo Expo

Namibia is a Unitary State founded on the principles of democracy and the rule of law. The vast majority of the Namibian population lives in the rural areas, villages, settlements and towns far away from the capital Windhoek where the parliament is located. This makes it difficult for those not living in the capital to easily access parliamentary activities or parliamentarians. Thus, the parliament carries out outreach programs to the regions as often as possible and Opuwo Trade Fair and Expo 2013 is one of them

- To present proper and accurate parliamentary information
- To enhance the public knowledge and understanding of Namibian's parliamentary system
- To facilitate the sharing and development of ideas, resources with public about parliamentary democracy and governance
- To empower the public to champion the consolidation of democracy and extend the discussion about parliamentary democracy to their own communities
 - To enhance public participation in the law-making process
